

Parish Council Audit response 2021

The Parish Council takes the Transparency Code seriously and always endeavours to be compliant with it. The Parish Council posted a prominent notice on the front page of its website from 29th July 2020 through to 1st September 2020 inviting interested parties to view the full accounts by requesting access from the Clerk. To the best of our knowledge all information required was published on our website within the timescales required. We remain unclear as to why we have been marked down in these areas, having sought the appropriate clarification.

However, the Finance Committee of the Parish Council will consider the internal audit recommendations in detail at their next meeting, with the objective of achieving full compliance in the future and report their findings and recommendation to the Parish Council in the usual way.
